

DENON DRA-900H

DRA-900H Network Stereo Receiver

Enjoy a high quality listening experience and 8K HDMI video from a 2-channel network stereo receiver with HEOS® Built-in wireless music streaming and DAB+ tuner.

HIGHLIGHTS	YOUR BENEFITS
High-performance two-channel amplifier	Discrete high-current amplifiers deliver up to 145W per channel —enough power to drive most speakers in a small to mid-sized room.
Expert sound engineering	Features an advanced custom amplifier design and large power supply to ensure your speakers drive detailed, precise imaging and impactful sound for both music and movies.
Advanced 8K home theater	8K video is supported on three of six HDMI inputs and one output. Enjoy easy video compatibility and great picture quality with HLG, HDR, Dolby Vision, HDR10+, and Dynamic HDR pass-through.
HEOS® Built-in technology	Stream music wirelessly to compatible HEOS-enabled components from a variety of streaming services. Add Denon® Home speakers to other rooms and control it all with the HEOS app.
Built-in Wi-Fi, AirPlay and Bluetooth	Provides both Wi-Fi and Bluetooth connectivity for your wireless network or direct music streaming from your smart devices. Use AirPlay to stream Apple Music or any other service.
Simple setup	Our award-winning guided setup assistant provides clear, step-by-step instructions to get you started.
Over a century of innovation	Founded in 1910, Denon enables the moments that matter through the relentless pursuit of quality, innovation, and audio performance.

SINCE 1910 | DEFINING AUDIO EXCELLENCE

HDMI Connectivity with ARC/eARC

Supports the latest HDMI technology on inputs and output. ARC (Audio Return Channel) or eARC (Enhanced Audio Return Channel) makes playing TV audio through your receiver simple, with just a single HDMI connection.

8K/HDCP 2.3

Enjoy pristine 8K picture quality on your 8K TV or projector. Supports both 8K pass-through and 8K upscaling of 4K content. Supports HDCP 2.3, the latest copy protection standard, for peace of mind when streaming copy-protected content.

Brilliant colour from HDR10+

Supports HDR (High Dynamic Range), HLG (Hybrid Log Gamma), as well as Dynamic HDR and HDR10+ pass-through. HLG offers HDR technology over broadcast content. Both Dynamic HDR and HDR10+ use dynamic metadata to optimize shadows and highlights as screens change.

Dolby Vision

Dolby Vision is a stunning HDR imaging technology that brings extraordinary color, contrast, and brightness to the screen. Compatible with Dolby Vision so you can enjoy Dolby Vision content from a compatible source device and TV.

Next generation gaming

Supports Variable Refresh Rate (VRR), Quick Frame Transport (QFT), and Auto Low Latency Mode (ALLM) for smooth, lag-free gaming experience when connected with the compatible gaming devices.

HEOS® Built-in

With HEOS® Built-in, your receiver can stream music wirelessly across compatible HEOS components from a variety of free and premium streaming services. Consumers can also enjoy their favourite music in any room of the home wirelessly. Play the same song in every room or select a different song for each connected room via a variety of streaming sources. Add Denon Home speakers to more rooms and control it all with the HEOS app.

AirPlay 2 and Apple Siri Voice Control

Use AirPlay 2 to stream Apple music wirelessly to the receiver, or group with other AirPlay compatible speakers to fill your home with music.

Works with Amazon Alexa

Control your AV receiver hands-free with Amazon Alexa and your voice. Adjust the volume, skip to the next track, switch inputs for your different media players, and more—“Just Ask.” Download the free HEOS Home Entertainment Skill to enable Amazon Alexa voice commands. Requires Alexa app and Amazon Echo, Dot, or equivalent. Availability of features varies by region.

High-resolution audio support

Enjoy superb audio fidelity with your favorite high-resolution audio tracks. The supported formats are ALAC, FLAC and WAV at up to 192 kHz/24 bit. It is also compatible with 2.8/5.6 MHz DSD files. Play HD audio tracks from a USB drive or other connected drives over network or from Amazon Music HD with subscription. Conventional MP3 and WMA files are also supported.

Bluetooth audio transmitter

Pair your favourite Bluetooth headphones with your receiver to continue listening to your favourite music, movies, or TV programs at night. You can also play audio from both speakers and Bluetooth headphones simultaneously. If you have a family member or a friend who is hearing impaired, we recommend this setup. You can connect one pair of headphones at a time.

Denon Setup Assistant

Award-winning guide Denon Setup Assistant supplies simple, clear instructions to get started. Just connect your receiver to your TV and follow the instructions on the TV screen to connect your speakers, perform speaker measurements, and connect source devices. For additional convenience, the receiver renames HDMI inputs automatically when connected or you can rename manually at your convenience.

Denon AVR Remote app

This iOS or Android control app allows you to control your network receiver, such as changing inputs, sound modes, volume, store and retrieve Quick Selects, show the receiver status, input and output signal information, change optional settings and so on. Once HEOS music is selected, the AVR remote app automatically switches to the HEOS app for seamless operation between 2 apps.

Denon Setup Assistant

Award-winning guide Denon Setup Assistant supplies simple, clear instructions to get started. Just connect your receiver to your TV and follow the instructions on the TV screen to connect your speakers, perform speaker measurements, and connect source devices. For additional convenience, the receiver renames HDMI inputs automatically when connected or you can rename manually at your convenience.

Almost unlimited music sources

Stream music from your favourite services via Bluetooth, Apple AirPlay 2 or the HEOS Built-in app. Listen to FM/ DAB+ Radio, Internet Radio, a wide array of music services, or connect a turntable to the high-quality Phono input.
